All (please forward to those I've missed) - attaching edits to the statement and Q&A for this week. Note that I revised the statement to reflect that this initial round is complete and that we will be conducting additional sampling. Also compiled all of the results highlights to date - folks are going to need to review this closely to make sure I got it right, was pulling from the final documents from previous rounds.

We also have a few new Q&As. Attempted to answer most of these, can folks take a look?

Thanks,
David
